The reason the lumpen PMC have elevated 'marginalized people' to the status of the revolutionary subject is because unlike the working class majority, they are vulnerable and small (in numbers) enough to be directly controlled. It's class warfare against the working class.

They are used by spontaneous internet cults and elite institutions who take advantage of their marginal and vulnerable position in society in order to set them against the working class - who they call 'settlers', 'colonialists' and 'bigots.'

Almost everyone who quote tweets me has an anime picture. Has something gotten lost in translation? I don't like any of you. I barely consider you human, if at all. I think you're deeply ill and nothing I have ever said, except this tweet, is addressed to you. What do you expect?

Yes, I am your enemy. Yes, everything I stand for is diametrically opposed to your existence spiritually. There is not a shred of anything I've ever tweeted that was remotely made with the expectation of winning any of you over or believing you would agree with it.

Plainly put, I'm not here for you. I don't care what you think. If you disappeared entirely I wouldn't care. You don't matter and what you think doesn't matter. You don't contribute anything to the world and no one cares about what you think, except people already like you.

After destroying the DSA, many ultra-left extremists are moving on like locusts to shit up CPUSA. The Communist Party is in need of comprehensive re-examination of its history. But the ultra-left fanatics will destroy the Party if they aren't stopped.

The DSA was an organ of the professional managerials and the psychotic declassed lumpen youth. It was a killer clown house of freaks and weirdos. The CPUSA must be the Party of working people, it must go the path of the golden, Stalinist Center.

Many argue that ceasing to trail the Democrats is an ultra left deviation. In fact, the Democrats are the ultra-leftists. Forging a party of working class independence means seizing a crucial moment in American history of widespread discontent with both parties.

It is a conservative, mature and pragmatic path to take. Yes, many call for the CPUSA to leave the Democrats out of self-righteous moralism. But both left and right deviations should be opposed.

The reasonable and conservative aspirations of America's working people are not given representation in either parties. The Communist Party must be the tribune of America's working people. Moralism, fanaticism, and opportunism are the principal internal threats to the party.

Many believe the CPUSA is too conservative. On the contrary it is not nearly conservative enough.

The age of the 'cult of youth' is over. The fanatical, extremist and psychotic inclinations of young people must be reigned in. They cease to possess a transformative role. The motto of CPUSA must be: 'On this rock I build my party.' The youth must learn from elders.

Elders shame themselves by not having the courage to recall and remember their own crucial experience. They must have authority over the stupid and brainless zoomers who by nature associate 'revolutionary politics' with their teenage angst. Enough! Have honor, CPUSA!

So you are telling me this is the party that has weathered the counter-culture and the fall of the Soviet Union, all the generational cyclical experience, and it's going to let these stupid kids abuse and disrespect it like this?

Hezbollah's Nasrallah just said that the US have been using helicopters to save ISIS terrorists from complete annihilation in Iraq and transporting them to Afghanistan to keep them as insurgents in Central Asia against Russia, China and Iran.

Thus the beginning of ISIS-K.

I'm learning to be more patient with haters. A lot of the time they have disabilities that aren't immediately clear in written text. We should all strive to be more patient with people on the internet. You really never know.

Literally EVERYONE hating on this image has an anime pfp. These are genocidal neo-nazis who are the enemy of mankind. They instinctually writhe at this photo. They are the future of fascism in America.
