 **Scopolamine Extraction (Requested TEK Verification)**

NEW 1

Hello, I am the soon-to-be Home Grow Ninja, And my first home grow is to be none other than that world-wide menace: brugmansia.

I have no intention of taking dangerous doses(lie, being that any dose is dangerous), but need to know if the following extraction would extract (at least most of) the Scopolamine, hyoscyamine, Atropine (etc)...

1. Grind the Leaves, Flowers, (roots?) and Seeds into a Beautifully FINE powder
2. Put powder into even FINER mesh (Coffee filter maybe?), put mesh in bowl
3. Cover mesh with ACETONE, Leave for 1 day
4. Put mesh in ANOTHER bowl of ACETONE, leave for ANOTHER day(Repeat, total of three bowls acetone)
5. Throw away plant remains, Pour bowls into Jar
6. Let COMPLETELY evaporate

Result: Enough Alkaloids to ERADICATE a small town(STONGLY NOT SUGGESTED) or STONE a whole Freaking County

I came up with this tek after reading some Salvia, weed, and Datura extractions, I just need to know if this would work...

My other option is the classic "Butane in the PVC pipe", So please let me know which would work better

I realize the DANGEROUSNESS of this little experiment, and have read every post, every Freaking warning out there, so please...  
NO RUDE/UNHELPFUL COMMENTS PLEASE

First Post, BTW; Hello World

how about a few tags?

If you dont know, This pretty much falls in the same category as Datura, Belladonna, Zombie Powder, Zombie Juice, and downright stupidity on the author's part  
Thank you very much for any HELPFUL/POSITIVE replies.

 **Re: Scopolamine Extraction (Requested TEK Verification)**  [Re: [HomeGrowToxicNinja](#)]  
#480335 - 09/21/10 12:55 PM (14 years, 6 months ago)

I'm not as well-versed on my extraction methods as I would like to be, but I'm pretty sure that what you've described here will work as you wanted it to...

#657977 - 02/07/13 10:38 PM (12 years, 1 month ago)

so did it work?

But with this extraction u got BOTH alkaloids Atropine/Hyoscyamine and Scopolamine u did nothing to isolate the scopolamine?

People like the op scare the Fuck out of me. Like there aren't enough drugs that are relatively safe to play with, this guys gotta do one that might as well be poison.

Goddamn, if you have a death wish do something metal like jumping in. Woodchipper, don't just be another overdosed idiot in the morgue.

-----  
Of course it's happening inside your head.  
Why should that mean it isn't real?

If I would have made a new thread u would be all like "OFMG USE SEARCH FUNCTION NEWFAG" u're pathetic

so after this procedure I have both alkaloids atropine and scopolamine how to isolate the scopolamine

wow finally some1 who is not talking offtopic

so can this process in the OP extract the alkaloids?  
if yes how would u isolate the scopolamine from the atropine?

Most people here probably aren't street chemist your best bet to possibly find already posted info or ask real chemist and professionals about the extractions. They have been good to me with questions iv had. Click the shroomery link in the welcome bar and go to the chemistry forum there. Those guys can give you trustworthy info.
